SUMMARY

Full-stack developer with **4+ years** of experience shipping products that real businesses run on: a national e-commerce marketplace, CRMs, logistics tools and automation systems. **8 mobile apps live on Google Play** (React Native / Expo). Builds AI integrations — including **MCP (Model Context Protocol) servers** that connect AI assistants to live business data. Takes features from idea to production: design, development, deployment, CI/CD.

EXPERIENCE

Frontend Developer · IT HOLDING

Jan 2023 – Present · Tashkent

- Build and maintain the **seller dashboard** and **internal admin dashboard** of a large e-commerce marketplace (React, TanStack Router/Query, Tailwind CSS)
- Develop the customer storefront with **Next.js** — live at stok.uz
- Ship **courier and warehouse-picker mobile apps** with React Native / Expo, released on Google Play
- Integrate frontends with the platform's REST API (MySQL, Redis, Typesense)
- Maintain the **Docker-based dev environment and CI/CD** used by the whole team
- Deliver client websites, internal tools and Telegram-bot automation across the company's other projects

Frontend Developer · OKS Technologies

Apr 2022 – Dec 2022 · Tashkent

- Built responsive websites and dashboards for the company's clients with React.js and SASS
- Turned Figma designs into pixel-accurate, mobile-friendly interfaces; integrated REST APIs

SELECTED PROJECTS

Stok.uz — E-commerce Marketplace Ecosystem · stok.uz

End-to-end marketplace platform for the Uzbek market: Next.js storefront, React seller & admin dashboards, logistics hub, and four React Native apps on Google Play.

MoySkklad MCP Server — AI Analytics Assistant · github.com/Abdulaziz1224/moysklad-analytics-mcp

Model Context Protocol server connecting AI assistants to a retailer's live ERP data — inventory, sales, cash flow, restock analytics — with curated tools and token auth (NestJS, React).

BidHub — Reverse-Auction Marketplace

Buyers post what they need, sellers compete. Next.js + TypeScript, Prisma/PostgreSQL, BullMQ + Redis workers, S3, Telegram bot; Vitest & Playwright tested.

Open source · github.com/Abdulaziz1224

telegram-otp-service — phone verification via Telegram bot (TypeScript, Prisma, CI) · **clip-product-search** — visual catalog search with OpenCLIP embeddings + FastAPI (Python).

Freelance mobile apps on Google Play

Moida Market (e-commerce) · Sport Leader (workforce) · Smart Hisob (accounting) — React Native / Expo + TypeScript, with NestJS/Node backends.
